

BOEL-TRONIC

TIRAS LED FLEXIBLES

FLEXIBLE LED STRIPS

FABRICACIÓN DE TIRAS LED FLEXIBLES

MANUFACTURE OF FLEXIBLES LED STRIPS

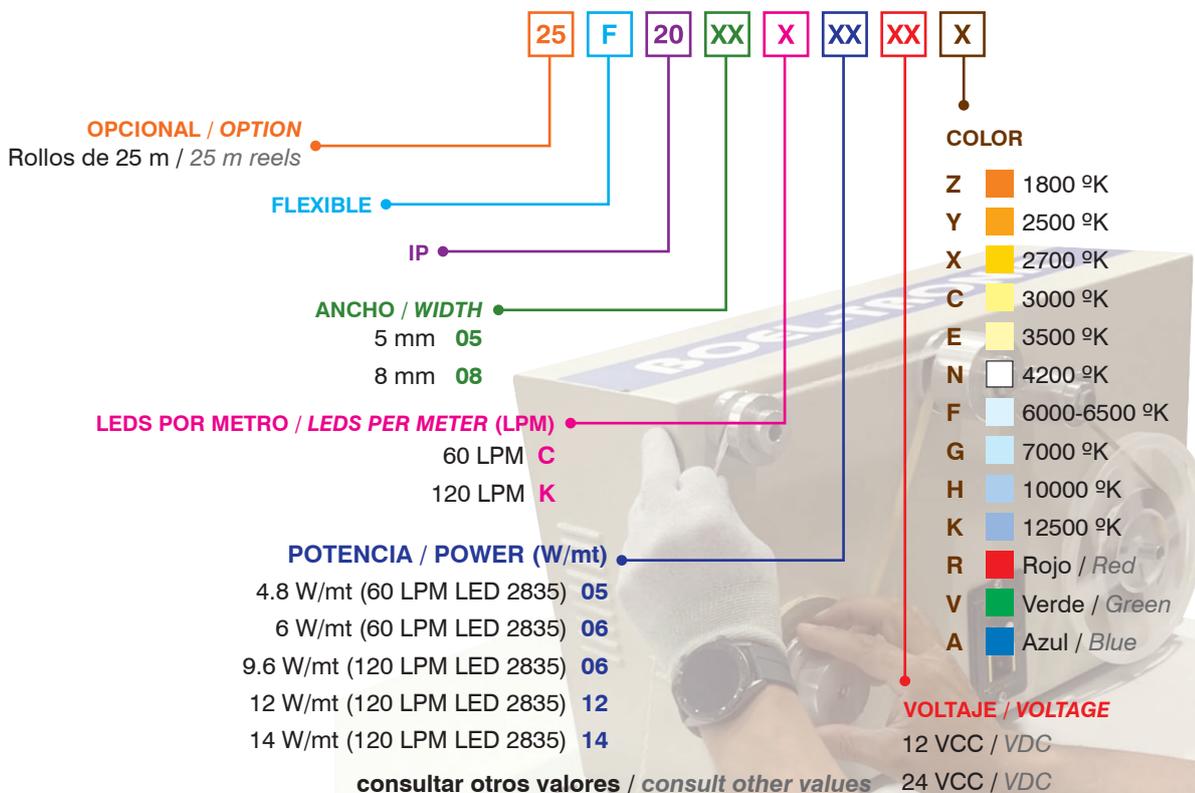

VENTAJAS DE FABRICAR LAS TIRAS DE LED FLEXIBLES EN ESPAÑA

1. Rapidez en las entregas: Al producir localmente, se eliminan los largos tiempos de transporte internacional, lo que permite responder con mayor agilidad a la demanda del cliente.
2. Mayor control de calidad: La cercanía con la planta de fabricación facilita el seguimiento de los procesos y asegura estándares de calidad más altos.
3. Reducción de costes logísticos: Se minimizan los gastos asociados al transporte, aduanas e intermediarios.
4. Personalización y flexibilidad: Es más fácil adaptar los productos a las necesidades específicas del mercado local.
5. Sostenibilidad: Se reduce la huella de carbono al evitar importaciones desde largas distancias.

ADVANTAGES OF MANUFACTURING FLEXIBLE LED STRIPS IN SPAIN

1. Fast delivery: By producing locally, long international shipping times are eliminated, allowing for faster response to customer demand.
2. Greater quality control: Proximity to the manufacturing plant facilitates process monitoring and ensures higher quality standards.
3. Reduction in logistics costs: Expenses associated with transportation, customs, and intermediaries are minimized.
4. Personalization and flexibility: It is easier to adapt products to the specific needs of the local market.
5. Sustainability: The carbon footprint is reduced by avoiding long-distance imports.

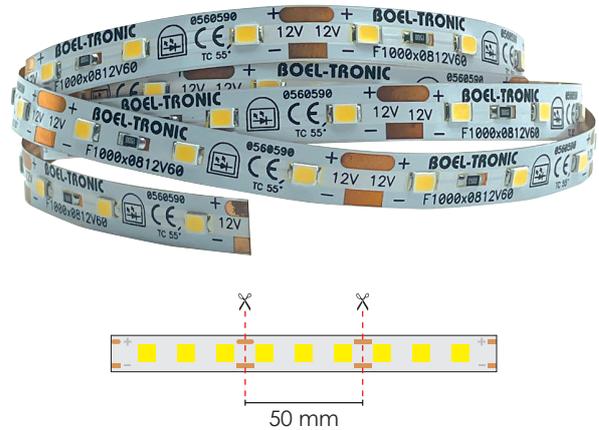

Características / Features

- Flexibilidad / Flexibility
- Personalización / Customization

Aplicaciones / Applications

- Ambiental / Environmental
- Bajo de armarios / Under cabinet
- Oculta / Concealed
- Exterior y paisajística / Exterior and landscaping
- Automoción / Automotive

PCB ANCHO 8 mm / PCB WIDTH 8 mm

Vivimos en una época de exposición realizada en la que se hace hincapié en la imagen y la estética. Por lo tanto, para ser competitivos, es imprescindible mostrar los productos mejorando su presentación lo máximo posible.

BOEL-TRONIC desea ayudarles en ese cometido y por ello hemos desarrollado una gama completa de Tiras LED para realzar la exposición específica de cada producto:

We live in an age of enhanced display where the emphasis is on image and aesthetics. Therefore, to be competitive, it is imperative to showcase products by enhancing their presentation as much as possible.

BOEL-TRONIC wants to help you in this task and we have developed a complete range of LED Strips to enhance the specific display of each product:

CÁRNICOS MEAT	O		Color rosado ideal para expositores de carnes o embutidos no envasados <i>Pink color ideal for meat or sausage displays not packaged</i>
PESCADOS FISH	P		Color azulado que da frescor resaltando el brillo de ojos y escamas <i>Blue color that gives freshness highlighting the brightness of eyes and scales</i>
VERDURAS VEGETABLES	Q		Color verde suave óptimo para frutas, verduras y hortalizas <i>Soft green color ideal for fruits, vegetables and greens</i>
PANADERÍA BAKERY	W		Color ámbar que destaca los distintos tonos de panes y bollería <i>Amber color that highlights the different tones of breads and pastries</i>
JOYERÍA JEWELRY	Z		Color ultra-ámbar que realza el brillo de los productos dorados <i>Dark amber color that enhances the shine of golden products</i>

En la página siguiente disponen de una tabla con las opciones más usadas, aunque al ser un producto de fabricación propia podemos adaptarlo a sus necesidades.

In the following page you have a table with the most used options, although being a product of our own manufacture we can adapt it to your needs.

Te lo fabricamos a medida – completamente personalizado para tu proyecto

La iluminación LED con **Neonflex 360°** es una solución moderna y flexible que ofrece una luz uniforme en todas las direcciones (360 grados), ideal para proyectos personalizados tanto en interiores como en exteriores. Su diseño tubular y flexible permite adaptarse a formas curvas, letras, estructuras arquitectónicas y elementos decorativos.

Ventajas:

- **Iluminación homogénea en 360°**, sin puntos visibles ni sombras.
- **Alta flexibilidad**, ideal para diseños creativos y a medida.
- **Eficiencia energética**, con menor consumo que sistemas tradicionales.
- **Durabilidad y resistencia**, incluso en exteriores (IP65+).
- **Fácil instalación**, sin necesidad de estructuras complejas.
- **Amplia gama de colores y temperaturas de luz.**

Es una opción estética, versátil y sostenible para iluminación arquitectónica, comercial, artística y señalética.

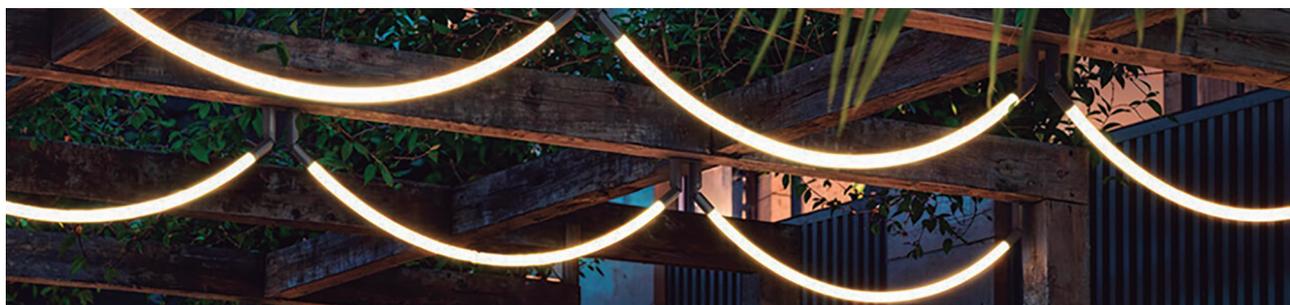

We build it to measure – fully customized for your project.

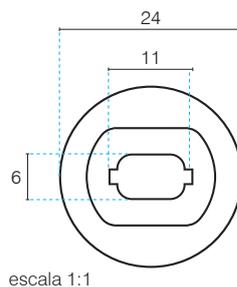

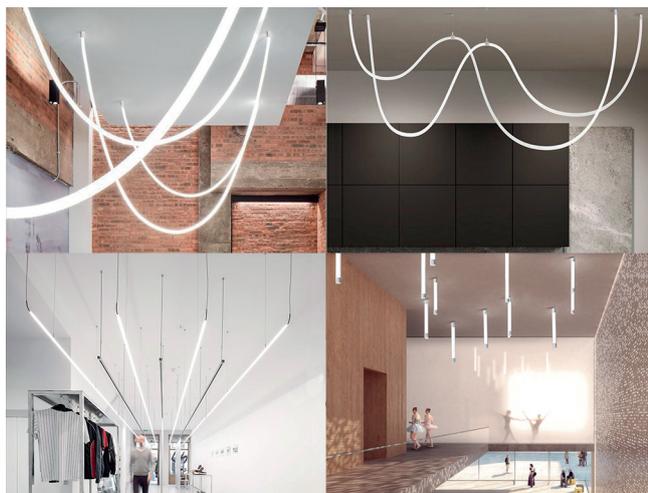

LED lighting with **360° Neonflex** is a modern, flexible solution that provides uniform light in all directions (360 degrees), making it ideal for customized indoor and outdoor projects. Its tubular, bendable design allows it to adapt to curved shapes, lettering, architectural structures, and decorative elements.

Advantages:

- **Even 360° illumination** with no visible dots or shadows.
- **High flexibility**, perfect for creative and custom designs.
- **Energy efficiency**, with lower consumption than traditional systems.
- **Durability and resistance**, suitable even for outdoor use (IP65+).
- **Easy installation**, no complex structures required.
- **Wide range of colors and light temperatures.**

It's an aesthetic, versatile, and sustainable option for architectural, commercial, artistic, and signage lighting.

Extrusión de silicona de nueva tecnología que permite realizar un haz de 360° de luz uniforme, sin puntos de luz. Gracias a ser un material flexible, permite realizar múltiples formas, ideales para decoración.

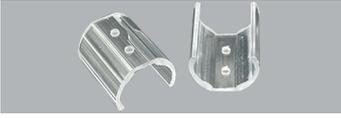

Protección IP67 - Resistente a soluciones salinas, ácidos, corrosión y llamas.

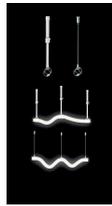

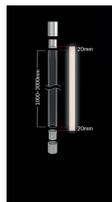

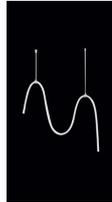

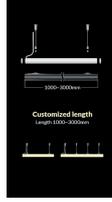

Bajo pedido, realizamos el montaje con las especificaciones que nos solicite.

Silicone extrusion of new technology that allows a 360° beam of uniform light, without light spots. Thanks to its flexible material, it allows multiple shapes to be made, ideal for decoration.

IP67 protection - Resistant to saline solutions, acids, corrosion and flames.

On request, we can make the assembly with the specifications you request.

EXPOSITORES

POINT-OF-SALE DISPLAY

Presentamos nuestros **expositores de sobremesa**, una herramienta práctica y atractiva diseñada para mostrar a clientes y profesionales una **visualización real de la calidad de nuestros productos**.

*We're introducing our **tabletop displays**, a practical and attractive tool designed to give customers and professionals a **real-world view of the quality of our products**.*

- Medidas: 520 x 470 x 240 mm
- Conexión directa a red 220Vac con interruptor
- **Totalmente funcionales, con un gran atractivo visual**
- Contenido personalizable (consultar condiciones)
- *Dimensions: 520 x 470 x 240 mm*
- *Direct connection to 220VAC mains with switch*
- **Fully functional, with great visual appeal**
- *Customizable content (see conditions)*

EXDSL5247ESP-EXPOSITOR PERFILES Y TIRAS LED / LED PROFILES AND STRIPS DISPLAY

Contenido

- 8 Muestras de perfiles de aluminio para led.
- 1 Muestra del rango de temperaturas de color.
- 1 Muestra del rango de colores.

Contents:

- 8 LED aluminum profile samples
- 1 sample of the color temperature range.
- 1 sample of the color range

EXDSGV52447ESP-EXPOSITOR GENERICO VEHÍCULOS / GENERIC VEHICLE DISPLAY

Contenido

- 1 Caja de luz personalizable.
- 1 Cruz LED decorativa.
- 1 Letrero animado programable RGB.
- 2 Luces LED para interior de vehículo.
- 1 Bandera ESPAÑA.

Contents:

- 1 Customizable light box
- 1 Decorative LED cross.
- 1 Programmable RGB animated sign
- 2 LED lights for the interior of vehicle.
- 1 Spanish flag

EXDSBL5247ESP-EXPOSITOR BANDERAS LED / LED FLAGS DISPLAY

Diseñado para mostrar de forma atractiva nuestra colección de banderas LED, ideales para la decoración de vehículos, comercios y espacios personales.

- 3 banderas led de exposición ESPAÑA-FRANCIA-PORTUGAL.
- Regulación automática: 33%-66%-99%-SIN OFF.
- Depósito para 18 banderas.

Designed to attractively display our collection of LED flags, ideal for decorating vehicles, businesses, and personal spaces.

- 3 led display flags: SPAIN-FRANCE-PORTUGAL
- Automatic regulation: 33%-66%-99%-NO OFF
- Storage for 18 flags
